

## SELECT CUSTOMERS

Organizations using SSB Training to enable their accessibility initiatives include:

- Hewlett-Packard
- BEA Systems
- Bechtel-SAIC
- Social Security Administration
- Wells Fargo Bank

## TRAINING COURSES

SSB Technologies offers training courses on several accessibility subjects, including:

- Web Accessibility
- Software Accessibility
- Hardware Accessibility
- InFocus Training
- JAWS Training
- Acrobat Accessibility
- Office Suite Accessibility
- Java Accessibility
- Windows Accessibility
- Flash Accessibility
- Federal Sales Training

## INFOCUS TRAINING

InFocus Training instructs attendees on the basic and advanced features of the InFocus Suite, and ensures that users receive the knowledge necessary to begin an accessibility project. InFocus Training is an excellent investment that enables development teams to use all the features that can save 90% of the cost and time required to achieve compliance with accessibility requirements. Attendees learn to use InFocus effectively and reinforce this knowledge through practice on your organization's existing Web content. The training includes:

- In-depth analysis of how InFocus addresses each specific accessibility requirement.
- Use of both InFocus and manual review techniques to ensure complete assessment of all accessibility standards.
- Introduction to advanced InFocus functionality including Autofix, configuration and secure site access.
- Development tactics for making complex Web content accessible, including JavaScript and multimedia.
- Customized training on how to use InFocus to address violations found within your IT systems.
- Use of InFocus with Web applications.
- Specialized techniques for specific departments including Web developers, Webmasters, project managers, and QA engineers.

## TRAINING BENEFITS

SSB Training is a critical component of a comprehensive accessibility initiative. Training provides:

- Expert advice to reduce the time necessary to implement accessibility enhancements.
- Easy-to-understand instruction that provides your organization with the implementation knowledge required to achieve accessibility.
- Customized course content that enables developers to identify and address known problems in your organization's Information Technology (IT) systems.
- Integration of accessibility into ongoing development processes in order to avoid costly retrofitting projects.

## TRAINING METHODOLOGY

Developed by working with over 400 customers on more than 600 client projects, SSB training courses include the following features:

- Instruction by Accessibility Experts tailored to your organization's needs.
- Training manual for future reference.
- Onsite or online course delivery, in half-day and full-day increments.
- Customization to incorporate material specific to your organization, such as known accessibility problems and participants' experience levels.
- Integration of training with other SSB products and services to facilitate your organization's overall accessibility initiative.

## WHO ATTENDS TRAINING?

InFocus Training is designed for team members using InFocus to find and fix accessibility errors within your organization's Web sites and Web applications. Training is relevant for Web developers, Webmasters, project managers, and QA engineers.

## WHERE DOES TRAINING FIT IN THE PROCESS?

Training is part of the Address phase of SSB's Assess, Address, Assure accessibility solution. Before implementing enhancements, SSB training provides your organization with the necessary tools to manage and implement an effective accessibility initiative. Training also enables your organization to derive maximum value from other SSB products and services.

## ABOUT SSB TECHNOLOGIES

SSB Technologies provides solutions that resolve the revenue loss, punitive damages, and compliance risks created by inaccessible Information Technology (IT) systems, including Web sites, Web applications, software, and hardware. SSB's proven Assess, Address, Assure™ solution integrates the business and technical requirements necessary to transform accessibility from a liability into a competitive advantage. With over 400 public and private sector customers, 600 successfully completed projects, and award-winning software, SSB has the experience and expertise to ensure that your organization reaches its accessibility goals.
