WEB ACCESSIBILITY TRAINING

SSB Web Accessibility Training enables Webmasters, Web developers, designers and QA engineers to create Web sites and applications that are accessible to people with disabilities and compliant with relevant standards. Attendees learn techniques for addressing all accessibility errors, with specific emphasis on complex violations and techniques for developing new content in an accessible manner. The training is tailored to the particular accessibility challenges faced by your organization and the experience level of the participants. The training includes:

- High-level overview of accessibility and how it affects Web sites and Web applications.
- In-depth analysis of technical standards, including Section 508, W3C WCAG, Disability Discrimination Act, and other relevant country-specific requirements.
- Solutions for fixing common compliance issues such as images, forms, and tables.
- Techniques for correcting complex accessibility errors such as scripts, multimedia, and style sheets.
- Analysis of accessibility errors in your organization's Web sites and applications.
- Integration of automated software tools, assistive technology and manual review techniques into your organization's processes to ensure ongoing accessibility.

TRAINING BENEFITS

SSB Training is a critical component of a comprehensive accessibility initiative. Training provides:

- Expert advice to reduce the time necessary to implement accessibility enhancements.
- Easy-to-understand instruction that provides your organization with the implementation knowledge required to achieve accessibility.
- Customized course content that enables developers to identify and address known problems in your organization's Information Technology (IT) systems.
- Integration of accessibility into ongoing development processes in order to avoid costly retrofitting projects.

TRAINING METHODOLOGY

Developed by working with over 400 customers on more than 600 projects, SSB training courses include the following features:

- Instruction by Accessibility Experts tailored to your organization's needs.
- Training manual for future reference.
- Onsite or online course delivery, in half-day and full-day increments.
- Customization to incorporate material specific to your organization, such as known accessibility problems and participants' experience levels.
- Integration of training with other SSB products and services to facilitate your organization's overall accessibility initiative.

WHO ATTENDS TRAINING?

Web Accessibility Training is targeted towards Web developers, designers, Webmasters, project managers, and QA engineers seeking to create and maintain Web sites and Web applications that are accessible to people with disabilities and compliant with accessibility requirements.

WHERE DOES TRAINING FIT IN THE PROCESS?

Training is part of the Address phase of SSB's Assess, Address, Assure accessibility solution. Before implementing enhancements, SSB training provides your organization with the necessary tools to manage and implement an effective accessibility initiative. Training also enables your organization to derive maximum value from other SSB products and services.

ABOUT SSB TECHNOLOGIES

SSB Technologies provides solutions that resolve the revenue loss, punitive damages, and compliance risks created by inaccessible Information Technology (IT) systems, including Web sites, Web applications, software, and hardware. SSB's proven Assess, Address, Assure™ solution integrates the business and technical requirements necessary to transform accessibility from a liability into a competitive advantage. With over 400 public and private sector customers, 600 successfully completed projects, and award-winning software, SSB has the experience and expertise to ensure that your organization reaches its accessibility goals.
